UNITED STATES DEPARTMENT OF AGRICULTURE
Agricultural Marketing Service
Washington 25, D. C.

February 1954

(This is background information only--
not for publication as an official list)

The foods listed below are expected to be in plentiful supply in May and August 1954. This is not a forecast or an appraisal of supply conditions but is based largely on historical patterns of production and marketing. You may wish to consider featuring these foods for the months designated.

It is expected that these foods will be included in the monthly list of plentiful foods issued by the U. S. Department of Agriculture shortly after the first of the preceding month. For example, the February list was issued January 8. The foods on these monthly lists are stressed through nationwide informational activities and through food trade merchandising.
